picture  
perfect

Hiring a marquee at a major sporting event is a popular type of corporate entertainment. But your hospitality area can run the risk of looking the same as the one next door, especially if they are both open structures without walls. So why not differentiate your marquee from your neighbour's by adding timber trellis and fencing? They provide privacy and offer a stylish boundary marker. Don't forget our padded folding chairs, Ottomans, two seater lounges, coffee tables and a water feature – they are versatile, practical and will help you create an enticing area for your guests to sit down and enjoy the ambience. ■

# In the spotlight

Whether it is a modest gathering or a large event, Kennards Events is a star performer. So when the organisers of Canberra's renowned Floriade festival needed to hire equipment, they naturally turned to us. We provided marquees, pavilions, exhibition stands, chairs and tables for the festival's corporate exhibition. This required the set up of forty pavilions, some with verandahs and entrance walkways. Other pavilions were used as café and restaurants, housed in structures up to one hundred metres in length. Special night openings, part of the Nightfest program, allowed visitors to view illuminated flowerbeds and outdoor movies, or enjoy a drink under the stars at our nine-metre long glow bar. Kennards Events will also help you make your event a shining success. Talk to us today to find out how. ■
